

Dear K&A

I'm so proud of you and everything you have accomplished it hasn't been easy, the way has been filled with ups and downs, but even in the hard days you haven't given up, always pushing through, showing up and doing your best to deliver smiles to us, giving us things to be excited about, to look forward to and that's so important and valuable, I can never thank you enough

All the hard work, thought, consideration, effort, passion and love you put into everything you do brings so much fun, joy and warms one's heart, I'm always looking forward to everything you do watching your streams, spending time with you is my favorite time of the day, rediscovering old games of our childhood with you and sharing those memories, playing new games and enjoying new stories, the stream dynamics where we share things of our lives or environment, the Zatsus, dancing shorts and karaokes, they all make invaluable memories that will stay with us forever

I love your karaokes so much. Your voice is a treat to the ears, they are so much fun and you move my heart every time. It's my favorite thing in the world I want to listen to you forever, you are the #1 idol in my heart

I love you so much

I'll be forever by your side

Kooniki for ever ♡♡♡♡♡♡♡♡
